Introducing the Most Powerful Polaris Snowmobile Engine Ever: the Polaris 850 Patriot  
(Photo: Business Wire)

“Our riders are some of the most passionate, hard-working people in the world and our 2019 Snow

lineup is purpose-built for them. There’s something new for everyone, from those who are looking to traverse the mountain on our RMK or want the versatility and high trail performance of our new INDY 129, to those who want to explore as a family thanks to our INDY EVO,” said Chris Wolf, president of Snow, Polaris. “With an unwavering focus on quality and performance, Polaris continues to innovate and offers options for all riders who want to have fun in the snow.”

## Introducing the Most Powerful Polaris Snowmobile Engine Ever, The Polaris 850 Patriot

- Nine percent gain in horsepower vs. the already powerful Polaris 800 H.O. engine
- Industry-leading power-to-weight ratio with up to a nine percent advantage over the competition

The **Polaris 850 Patriot** engine features class-leading durability, backed by a standard four-year warranty. The new liquid-cooled 850 twin delivers unrivaled acceleration, response and power. This new engine is available in select models across the 2019 RMK, Switchback, RUSH and INDY lineups exclusively through Polaris' SnowCheck spring pre-order program.

## INDY XC 129 and INDY SP 129: Built for Trail Performance & Versatility

- Next-generation PRO-CC Rear Suspension for smooth riding, class-leading acceleration and flat cornering
- Quick conversion from solo seating to 2-up seating

Earlier this year, Polaris introduced the world to the **INDY EVO™**, a trail-ready sled for new riders, and is further expanding **the INDY family** with the all-new INDY XC 129 and INDY SP 129. These versatile new models are built on the proven, lightweight AXYS® Chassis and introduce the all-new PRO-CC 129 Rear Suspension that provides trail riders with the outstanding ride, acceleration and versatility they need.

## New Technology Makes the World's Greatest Mountain Sled Even More Predictable and Effortless

- All-new PRO-RMK® React™ front suspension for the most precise and effortless deep snow handling
- All-new PowderTrac™ XT Running Boards for improved sidehilling clearance available in MY19 850 PRO-RMK 155 and 163 SnowCheck models

For model year 2019, the **Polaris RMK** sleds have been elevated to the next level of performance with the all-new AXYS® PRO-RMK® React™ Front Suspension, new PowderTrac XT Running Boards, new lightweight components, and are available with the most powerful Polaris snowmobile engine ever, the all-new, SnowCheck-exclusive, Polaris 850 Patriot Engine. The front suspension system features all-new geometry and an adjustable 36-inch to 38-inch ski stance, along with forged spindles and forged control arms for optimized strength and durability.

## Timbersled Continues to Lead the Snow Bike Industry

- Two new innovative snow bike systems: Timbersled ARO 120 SX and Timbersled ST 93 Ripper

For the 2019 lineup, Polaris is expanding the industry-leading snow bike lineup to include a new, race-ready model, the **Timbersled ARO 120 SX**. The ARO 120 SX features race-proven technology engineered for performance and built for the most aggressive racing and backcountry riding conditions. Timbersled is also introducing the **Timbersled ST 93 Ripper**, designed for use with all popular 110cc dirt bikes. The Ripper features a lightweight 93-inch track and dual-arm suspension specifically designed to improve performance off the trail.

These Polaris snowmobile and Timbersled offerings, along with many others, are currently available through Polaris' limited-time spring **SnowCheck** period. Polaris SnowCheck offers the industry's only true factory customization program, where riders can custom build sleds that ideally suit their individual riding styles. The SnowCheck order period runs through April 17, 2018.

More information about Polaris Snowmobile and Timbersled models can be found at **PolarisSnowmobiles.com** and **Timbersled.com**.
